Summary

MERN Stack Developer expertise with **frontend** and **backend** development, experienced in leading cross functional teams.

Technical Skills

Frontend : JavaScript, ReactJS, Tailwind
Backend: NodeJs, Express.js
Database : MongoDB, MySQL

Experience/Projects

MustTech Solution   September 2024 – Present
MERN Stack Developer   *Model Town, Lahore*

Worked at MustTect Solution, a service-based company, as a Full Stack MERN Developer, where I led and contributed to 50+ diverse client projects, primarily focused on frontend development.

- **Developed** responsive, user-friendly interfaces with **ReactJS**, emphasizing **clean design**, **reusable components**, and **performance optimization**.
- **Built and maintained** full-stack web applications using the **MERN stack** (**MongoDB, Express.js, React.js, Node.js**), managing both **frontend** and **backend workflows**.
- **Handled end-to-end deployment** on **VPS**, including **domain configuration**, **SSL setup**, and **deployment automation**.
- **Managed multiple client projects** simultaneously, enhancing **time management** and **adaptability** in **deadline-driven environments**.
- **Gained hands-on experience** in **ReactJS**, **Redux/Context API**, **RESTful API integration**, and **backend development** with **Node.js** and **Express.js**.

MsnSoft   November 2023 – July2024
ReactJS Developer   *Wapda Town, Lahore*

Worked on DoctorFindy, an online doctor appointment web application similar to Marham and Oladoc in Pakistan.

- Developed and maintained responsive front-end components using **ReactJS**, improving user experience and application performance.
- Integrated **RESTful APIs** built in **Laravel**, enabling seamless data flow between the front-end and back-end systems.
- Designed and implemented basic backend APIs as per project requirements to support new features and workflows.
- Collaborated with cross-functional teams to resolve issues, perform debugging, and enhance application stability and usability.

Projects

Job Hunt Platform | *Node.js, React, Express, MongoDB*

- Built a responsive MERN stack job portal with recruiter posting, candidate applications, dynamic filters, Redux Toolkit state management, and secure API integration.

Dream-Hire | *React.js, Tailwind CSS, Redux Toolkit, Framer Motion*

- Developed a Fiverr-inspired freelance marketplace with responsive UI, role-based access control, engaging animation effects using Framer Motion, and centralized state management via Redux Toolkit.

Bulbul Drone Delivery | *React.js, Tailwind CSS, Shadcn UI, Redux Toolkit*

- Built a Bulbul drone delivery web app enabling users to pin exact drop locations, with modern UI using Shadcn, dynamic state handling via Redux Toolkit, and optimized UX for precise delivery coordination.

Education

Khawaja Fareed University   Aug 2018 – Sep 2022
Bachelor of Science in Computer Science   *RahimYar Khan, Punjab*
